*Davenport Asset Management presents the Virtual Investor Summit Series*

## Fake News! Cybersecurity in the Era of AI

*July 2025*

Cybersecurity has been a major concern for years, but with the recent proliferation of artificial intelligence (AI), the risks are changing and constantly evolving.

Watch this video as Davenport's Jeff Potter illuminates the concerns and safeguards that individuals and organizations should learn in order to protect their family, staff, and livelihood. This program will inform the viewer on scams, protection methods, and breach management.
