These fees are either in relation to Section 31, which requires national securities exchanges or associations (such as NYSE or Nasdaq) to pay a fee to the Securities and Exchange Commission, or in the case of options trades, the fee is set by the CBOE. The amount of the fee changes periodically. Davenport passes on these fees to customers for each qualifying transaction.

¹¹ Financial Transaction Taxes and Stamp Duties are assessed on a purchase or sale of certain securities connected with countries that impose a transaction tax or stamp duty/tax. The applicable tax may be separately collected and remitted to the applicable foreign tax authority, which is generally the case when the transaction is executed on a US exchange (such as an ADR), or embedded in the execution price, which is typically the case when the transaction is executed in a local foreign market/exchange.

Fidelity Bond Coverage

Davenport maintains blanket fidelity bond coverage in excess of the minimum requirements imposed by the Financial Industry Regulatory Authority (FINRA). Davenport's coverage is \$50 million in total and \$25 million per incident. Our fidelity bond coverage provides that the insurance company will pay the insured business or individual for money or other property lost because of dishonest acts of its bonded employees. The bond covers all dishonest acts, such as larceny, theft, embezzlement, forgery, misappropriation, wrongful abstraction, or willful misapplication, whether employees act alone or as a team.

Summary

Davenport is fully committed to protecting the securities our clients entrust to us. Rigorous adherence to regulatory procedures, checks and balances, SIPC insurance coverage, blanket fidelity bond coverage, and a conservative, well-capitalized balance sheet all work together to ensure the utmost protection of our clients' assets. Should you have any questions or comments, please contact your Financial Advisor.

Business Continuity Plan

Davenport maintains a Business Continuity Plan ("BCP"), which documents procedures to assess and respond to a business disruption. The BCP accounts for a variety of interruptions including those that could solely affect Davenport, or a building, business district, city or region in which Davenport conducts business. The BCP provides that the Business Continuity Committee ("BCC") assess the severity of any disruption and activate the necessary procedures.

Davenport maintains a back-up data and communications facility that is geographically separated from our primary facility. Should there be a disruption to our primary facility or business district, Davenport can relocate critical personnel to the back-up facility to maintain communication with clients and provide prompt access to cash and securities. Further, each branch office has a plan to enable its employees to continue to conduct business during an interruption at a branch location.

If a business disruption occurs, Davenport intends to continue to conduct its business and minimize the recovery time necessary to resume normal operations. In the unlikely event the BCC determines that Davenport is unable to continue business following a significant disaster, the BCC would implement procedures to ensure clients prompt access to funds and securities. Modifications to the BCP will be made as warranted based on changing circumstances and needs. Any resulting revisions to this disclosure will be included on our website www.investdavenport.com. Alternatively, clients may request a copy of the most recent disclosure by mail.

In the event that Davenport must implement its BCP, clients may contact us at (800) 913-4685. Information will also be provided on our website: www.investdavenport.com.

USA Patriot Act

The USA PATRIOT ACT is designed to detect, deter, and punish terrorists in the United States and abroad. The Act imposes anti-money laundering requirements on brokerage firms and requires us to have a comprehensive anti-money laundering program, which includes a customer identification component.

As part of our required program, we may ask you to provide various identification documents or other information to verify your identity. These documents may include government issued IDs and, if applicable, corporate paperwork. If you decline to provide such documents, Davenport may not be able to conduct securities business with you and may be forced to close such accounts or refuse to transact securities business. To aid in our identification process, Davenport has contracted with a third party vendor. If applicable, certain relevant information regarding your account may be passed to such third party to verify your identity and help Davenport comply with the USA PATRIOT ACT.

Relationships with Third Parties

Like many securities firms, Davenport may receive payment from third parties whose products we distribute, including mutual fund companies, money market funds, banks, and insurance companies. Payments from mutual fund companies, money market fund, and insurance companies may include sales loads, rule 12b-1 fees, sub-transfer agent fees for maintaining customer account information and providing other administrative services for the mutual funds, shareholder account fees and networking fees and reimbursements for education, marketing support and training related expenses. In addition, Davenport can receive revenue related to the money market

funds and FDIC cash sweep product used for cash management services. Davenport believes that all payments are in accordance with industry rules and regulations currently in effect. The minimum and maximum aggregate payment that Davenport can be paid ranges from 0.06 - 0.88%, respectively, and can be zero at times. Please contact your Financial Advisor if you have any questions regarding such relationships, payments or the extent to which your Financial Advisor benefits from these arrangements. You should also refer to the prospectuses, Statements of Additional Information, and Terms and Conditions of the products in which you invest for further information regarding such payments.
